Job type: **Full-time**

Location: **Athens, Greece**

Apply via email to: recruitment@crediabank.com

About the job

CrediaBank is seeking for a **Business Intelligence Analyst** within the MI Reporting Unit. As Business Intelligence Analyst you will collect, process and analyze data and create and maintain data structures, while utilizing reporting tools to provide reliable information to relevant business units. The ideal candidate will have experience in data analysis, preferably in the financial sector, and demonstrate strong analytical skills and detail-oriented mindset as well as ability to integrate information into comprehensive solutions.

Responsibilities

- Collect, process and consolidate data, utilizing Business Intelligence tools to ensure accurate and consistent information
- Design and implement mechanisms to ensure seamless and secure flow of information across relevant business units
- Develop, configure and maintain robust data structures to meet reporting needs
- Understand regulatory requirements and automate regulatory reporting processes
- Organize and manage the unit's information database and all related documentation, to ensure accessibility to information
- Provide technical input, design and maintenance support for reporting tools and data visualization solutions.

Qualifications

- A bachelor's degree preferably in Science, Computer Science or any other related degree
- A master's degree is desirable in a relevant field of study
- Excellent command of English (both written and spoken)
- Strong computer literacy and proficiency in MS Office
- At least **3 (three) years** of professional experience in data analysis or another related field
- Proficiency in data analysis / statistical analysis
- Very good knowledge of SQL and/or other statistical programming languages
- Proficiency in programming languages (e.g., Python, R, SAS)
- Experience with Power BI and/or other Business Intelligence tools will be highly appreciated
- Strong analytical thinking and high attention to detail
- Critical thinking and problem-solving ability

- Excellent communication, collaboration and organizational skills
- Ability to adapt in a fast-paced working environment
- Continuous learning mindset.

About CrediaBank

CrediaBank was created through the merger of Attica Bank and the former Pancreta Bank and is the 5th largest bank in Greece in terms of assets. It is a modern banking institution with a network of 65 branches and 5 business centers across the country, serving approximately 300,000 individuals and businesses with a wide portfolio of deposit, investment, and insurance products, mutual funds, loans, and brokerage services. Customer service is a top priority for CrediaBank, which is why it is the only bank that welcomes customers both with and without appointments, offers cashier services available throughout the day, and operates with extended hours through the CrediaConnect service.

CrediaBank operates as a credit institution supervised by the Bank of Greece, strictly applying both European and national regulatory frameworks governing the operation of banks. More information about the Bank is available on our website <https://www.crediabank.com/>

We respect your personal data

CrediaBank, taking into account that the personal data of candidate employees is of great importance, informs you in accordance with Regulation (EU) 2016/679 and the relevant provisions of the applicable Greek legislation for the protection of personal data, in its capacity as controller of the type of personal data it collects, the reason they are collected and processed and how long they are retained here <https://www.crediabank.com/gdpr/>
