CrediaBank: Access to More Than 2,500 ATMs across Greece through partnership with Euronet

Free withdrawals exclusively for CrediaBank customers

CrediaBank, in partnership with Euronet, now offers the largest nationwide ATM access network in Greece, with more than 2,500 locations and no transaction fees for its customers on selected transactions.

By joining forces, CrediaBank — the bank that is not afraid to break bank stereotypes — and Euronet, a global leader in ATM management, card issuing and acquiring services, and payment processing, provide customers with ATM access even in the most remote areas of the country.

The aim of this partnership is to ensure immediate customer service everywhere, including regions of rural Greece where there are no bank branches, by offering unlimited cash withdrawal transactions* and balance inquiries free of charge for CrediaBank customers at the Bank's 141 ATMs (80 located inside branches and 61 outside branches), as well as at more than 2,500 Euronet ATMs throughout Greece.

The use of these services is subject to the Bank's transaction terms and the applicable pricing policy. More information is available at crediabank.com.

**Subject to the applicable transaction limits and regulatory framework.*
