CrediaBank – Recovery and Resilience Facility (RRF): Submission of Request for the Second Tranche Disbursement

CrediaBank announces the submission of a request to the Ministry of National Economy and Finance for the approval and disbursement of the second tranche, within the framework of the Bank's participation in the Loan Program of the Recovery and Resilience Facility (RRF).

During the first phase of the Program, CrediaBank has already financed sustainable investment projects with a total budget exceeding €200 million, covering the entire Greek territory – with particular emphasis on the Regions and on the RRF's strategic pillars:

- Green transition
- Digital transformation
- Extroversion and business competitiveness

With a clear strategy aiming at enhancing innovation, competitiveness and the outward orientation of Greek entrepreneurship, as well as with specialized human capital and know-how, CrediaBank seeks to swiftly absorb the funds of the second RRF tranche and to continue actively supporting investments that are transforming the Greek economy.

Businesses interested in learning more about the terms, conditions, and required documentation for submitting a financing application can contact their CrediaBank relationship manager or visit the Bank's website.

This development reaffirms CrediaBank's role as a flexible, reliable, dynamic and modern financial institution that provides both businesses and individuals with the tools they need to grow – through practical and effective financial solutions.
